MARKING INK

Marking Inks are formulated to mark required message / matter on Plywood , Asbestos Sheets , batch printing on corrugated cartons , poly bags , aluminum foils to name a few. Marking Inks are of following types:

Porous Inks: Are used for marking on porous surfaces such as Paper, Plywood, and Asbestos Sheets.

Non-Porous Inks: Are used for marking on Non-Porous Surfaces such as Tin, Polythene Bags to name a few.

RULING INK

Ruling ink performs on all current papers used for the production of forms, notebooks, foolscap Paper etc. We have both Dye Based & Pigment based inks. Pigment Based Inks provide improved light fastness and are improved waterproof. Additionally using pigment based ruling inks result in a far sharper print. The inks are suitable for high-speed production. The formulation assures high quality line printing.
